Sneha Agarwal

I am a recent graduate, seeking a position in a creative and dynamic work environment where I can apply my skills in web design and development.

EXPERIENCE

Underscore Technology Private Limited, Durgapur — *internship*
Frontend developer
January 2020 -May 2020

I have contributed to the development of several websites here during my internship. I have learned about web development and specifically modern Javascript and React.js .

LifStyl Real Estate– https://lifstylrealestate.info/(worked on Javascript basics, like array, mapping, if else and react like routing, props etc)

WhisperSite– https://whispersite.com/(worked on css mostly)

Team Clock – https://teamclock.net/(mostly solved issues on github)

PROJECTS

Calculator
with Javascript , HTML and CSS (I have done this project for my understanding of mathematical functions in Javascript.)

https://github.com/sneha2395/Calculator_1
